Life after school event

NZDSN in conjunction with Imagine Better are hosting this Life After School What's Next Event being held in Nelson. This series of events is for students aged 13-21 and their family/whānau, secondary school educators, Ministry of Education

staff, service providers involved in transition/employment/day support and other key stakeholders. It will help create a deeper understanding of the key issues each group is grappling with and actively explore how the group can relook at this journey for our youth. There will be practical strategies explored to enable participants to return to the 'real world' and begin the process of creating the necessary change.
